OCTOBER MARKET INTRODUCTIONS

COTTAGE REVIVAL

Cottage Revival is a place of remembrance and connection, where carefully crafted furnishings form an anthology of our lives. Enchanting elements, from a garden gate to seeded glass and shuttered doors, capture the imagination and the heart. In honey pine, antique white and black finishes, with accents in iron and sea grass.

PENINSULA

Adventurous in character, yet casual in feel, an island collection combining the tradition of cherry with the untamed nature of abacá and rattan.

CORINTHIA

Named for its Corinthian column detail, a rich and classic combination of timeless elements in a dark fruitwood finish with regal scale.

WORK@HOME

A productive office environment with all the style of home. The Chesterfield collection offers an air of English antiques, while American View exemplifies the urban sophisticate.

RELAX AT HOME

The Cottage Revival, Peninsula and Chesterfield collections bring their own distinct character to home entertainment, pleasing both the electronics aficionado and the home enthusiast.

YOUNG AMERICA®

Just for boys, Harbor Town sports a nautical feel in rustic cherry, combining the style of classic louvered panels and the substance of innovative under bed storage solutions.
