OCTOBER MARKET INTRODUCTIONS

VILLA ANTICA The design heritage of Villa Antica speaks of historic European countrysides. Heavily distressed maple solids, subtly combined with rogue cherry and mahogany veneers, mingle with aged espresso leather, antique iron and woven cane. Modest in scale, its gentle patina creates the impression of treasures collected over time.

PORTOFINO The sophisticated Portofino looks back to old world painted finishes in ivory or Basque black. Muted paintings grace select pieces, mixed in an eclectic fashion with rustic iron, cappuccino leather, wicker and saucy slip-covered cushions.

AMERICAN MODERN A dark merlot finish with satin nickel accents, saber legs, Dijon Recaro leather and abaca join for a decidedly urban point of view.

HOME THEATER New home theater cabinetry is designed for cathedral ceilings with new options for even the largest plasma TVs, all with additional storage and display for other electronics, books or accessories.

HOME OFFICE Styled for public areas of the home, new free-standing library pieces are beautifully designed for multi-purpose use throughout the house.

YOUNG AMERICA® From the industry leader for youth furniture, the natural hard white maple of 2nd Nature and the crisp clean white painted Starlight offer simple but sophisticated styling, including new pieces for the nursery and other rooms of the house.
